

**Now there is *mut!* -**

The Newest Political Party in Bavaria

***mut* - To respect human dignity:**

Human dignity is inviolable. Personal rights are indivisible. They apply to everyone, equally.

***mut* - For social diversity:**

Minorities are entitled to equal protection. Everyone has the right to pursue their personal and career goals and to live out their individual personal and sexual identities.

***mut* - For social justice:**

Everyone should have equal and legal entitlement to the pursuit of wealth, security and happiness. Citizens are entitled to make their own political decisions on how to achieve them.

***mut* – For ecological sustainability:**

Long term economic viability depends on a just distribution of resources and wealth, and long term ecological sustainability is connected to this. *mut* calls for an end to conventional agricultural subsidies and for the promotion of public welfare-oriented, ecological farms.

***mut* – For a revitalized Democracy:**

Standing up for each other; managing things together, listening to others respectfully, that is the essence of a living democracy. And that is the core of our 'Couracracy'! We demand the creation of citizen parliaments and the unconditional respect of people's political decisions!
